Hi All,

It was brought to my attention that it might be helpful if chemists had the opportunity to review their scheduled court cases periodically. I am attaching the 2012 scheduled cases in excel.If there is any case you would like to add please forward that information to Janice.

Although Julie will not be asking for this data going forward and State Police has not indicated as of yet that they want it, I still think it is a good, centralized accounting of the ongoing burden that court scheduling and the subsequent pulling of data that is placed on everyone.

Please ask for this information any time you need it.

ELO
